

GREEN PRO FR 30 D 45 BC TOUCH

Walk behind scrubber dryers FR 30 SERIES - with TRACTION

Ghibli's focus on environmental issues led to the creation of the GREEN PRO FR 30 D 45 BC TOUCH, a new version in recycled plastic material of the well-known FR 30 model, which has always been an important benchmark in its market segment. 30-liter capacity scrubber dryer that, thanks to an innovative integrated solutions system, provides maximum maneuverability and ease of use. The user-friendly, interactive control panel with display allows a quick selection of all major machine functions. The "silent mode" function is ideal for day cleaning and in all environments (hospitals, schools, nursing homes) where being quiet is an essential and qualifying element. The adjustable and extremely compact squeegee (only 65 cm) offers perfect drying results. High speed (up to 4.5 km/h), high productivity and great running time (over 2 hours). The sensor-based TOUCH system provides the operator with maximum flexibility and control while operating the machine.
