

GREEN PRO POWER D 12 HE

Dry vacuum cleaners

Efficiency, energy saving and environmental protection are now basic market requirements, regulated by increasingly stringent regulations. Ghibli has responded to these growing requirements in a precise and timely manner, revolutionizing its flagship model under the banner of sustainability and energy efficiency: thus GREEN PRO POWER D 12 HE (High Efficiency) was born. A model unchanged in shape and equipment, but radically revamped that, thanks to the use of recycled plastics for its production and the 650 W suction motor, is the perfect mix of reliability, power and optimal energy consumption.
