

GREEN PRO POWER WD 36 P

Wet & Dry vacuum cleaners

Medium-capacity wet/dry vacuum cleaner equipped with a powerful and high efficiency new-generation motor. Eco-friendly model made of regenerated and recyclable plastic materials. Equipped with the innovative UFS (Ultra FilteRing System) filtering system, which, thanks to the special polypropylene spacer ring, allows the cartridge filter (class M) to remain installed at all times, ensuring optimal suction performances and maximum protection for the motor (even in case of incorrect use by the operator). UFS is also practical: cleaning and maintenance of the floating system, which is independent from the motor head and attached directly to the ring, is immediate, simple and intuitive. Outfitted with accessory housings and exhaust air filter. Paper, HEPA cartridge, nylon and TNT filters optional.
