

GREEN PRO ROLLY NRG 7½ M 33 BC 10 AH

Compact walk behind scrubber dryers ROLLY NRG SERIES

GREEN PRO ROLLY NRG 7½ M 33 is the new compact scrubber-dryer in the Rolly series, more powerful and reliable than ever for top cleaning results! NRG as energy, power, but also innovation: a system of integrated technical solutions to meet the needs of the most demanding cleaning professionals. High-performance model made of regenerated and recyclable plastic material, agile in tight spaces where no one can get to, thanks to its 7,5-liter capacity and ultra-compact size, patented special handle and pivoting rear wheels. The latest generation lithium batteries, enclosed in a practical case, ensure high running time, reliability and performances. Thanks to the cylindrical brush deck with three different down pressure modes, and the special alternating twin squeegee system (patented), GREEN PRO ROLLY NRG 7½ provides excellent drying results while keeping consumption limited and optimized. Low-noise machine (only 54 dbA in silent mode), perfect for day cleaning and working in "sensitive" areas such as hospitals, nursing homes and schools. A model that, thanks to a practical and intuitive control panel that allows the operator to better manage its functions and colored levers/knobs that help the operator in the daily operation of the machine, needs no training and can be used by everyone. Quick and easy ordinary maintenance.
