

GREEN PRO RUNNER R 150 FD 100 BC CHEM

Ride-on scrubber dryers RUNNER SERIES

GREEN PRO RUNNER R 150 FD 100 BC CHEM is the ride-on scrubber dryer made of regenerated plastic that, with its wide cleaning width (1000 mm) and a productivity of about 6000 m²/h, is the ideal solution for cleaning large areas. Excellent cleaning performances guaranteed by the wide and "responsive" squeegee, which provides top drying results on all types of surface, the down pressure adjustment system (three levels up to 101 kg maximum pressure) and the detergent action (Chemical mixing system). GREEN PRO RUNNER is designed to ensure the maximum in terms of efficiency and comfort to the operator: all the main functions of the machine are manageable from the practical and intuitive control panel; the easy accessibility to the machine, combined with excellent visibility, ensures convenience and practicality even for particularly long and difficult work sessions. The ECO program makes it possible to optimize consumption, minimizing it while still providing the best cleaning performance.
