

GREEN PRO AS 5 NEXT BC Lithium

Vertical dry vacuum cleaners with batteries

Green Pro AS 5 NEXT BC Lithium is the eco-friendly version of Ghibli's battery-powered dry vacuum cleaner, perfectly combining compactness and efficiency. The motor head houses a powerful brushless motor, designed to ensure quiet operation and deliver high cleaning performance. This model, made of recycled plastic, offers the same durability and performance as the standard model. The ergonomic, durable handle, practical accessory holders, the protective bumper, the trolley with front swivel wheels and fixed rear wheels, make the Green Pro AS 5 NEXT extremely manoeuvrable and comfortable to use. To make the machine even more functional, a dual hose coupling system has been designed to ensure a secure fit during operation. Furthermore, the release mechanism on the suction inlet allows the hose to be easily detached with one hand. The vacuum cleaner features two different suction power settings to suit every need: Eco mode, designed to reduce energy consumption without compromising cleaning effectiveness, and Boost mode, ideal for tackling the most stubborn dirt. The Green Pro AS 5 NEXT BC Lithium is powered by CAS (Cordless Alliance System) batteries, offering versatility, reliability and high-level performance: up to 50 minutes of runtime and fast charging in just over an hour.
