

## Ride-on sweepers

The HS R 130 is the ride-on sweeper ideal for cleaning large areas. It guarantees excellent performance with a productivity of 9700 m<sup>2</sup>/h and a cleaning width of 1300 mm due to its centre and side brushes. Depending on the type of dirt to be removed, the operator can adjust the pressure of the central brush using a practical lever. In addition, the pedal-operated lifting of the central flap allows the picking up of materials and small objects. While working, the dust is retained by a powerful filter system consisting of 8 cartridge filters with electric filter shaker, allowing the operator to work in complete safety. The HS R 130 ADM model is equipped with the practical automatic tipping system, operated via the control panel, which allows the collection container to be lifted and emptied directly into the waste bin quickly and easily. The impact-resistant steel frame and certified antistatic system make the HS R 130 a robust and safe machine. The BC version has batteries (24V) and a battery charger on board.

## PRODUCT IDENTIFICATION

TYPE	REF. NO.	PIECES/PALLET
HS R 130	10.8130.00	1
HS R 130 ADM	10.8133.00	1
HS R 130 BC	13.8130.00	1
HS R 130 BC ADM	13.8133.00	1

## TECHNICAL DATA

### FEATURES

Main brush cleaning width + right side brush + left side brush	mm	780 - 1025 - 1270
--	----	-------------------

Productivity	m <sup>2</sup> /h	9700
--------------	-------------------	------

Power supply		Battery 24V
--------------	--	-------------

Installed power	W	2540
-----------------	---	------

Advancement		With traction
-------------	--	---------------

IP code		IPX0
---------	--	------

### BATTERIES

Type	Battery set (4 pcs) 6V 240Ah (*)	
------	----------------------------------	--

Running time	h - min	2 h and 30 min
--------------	---------	----------------

Battery compartment dimensions x No	mm x No	810x335x360 X1
-------------------------------------	---------	----------------

### BRUSHES

Main brush length x No	mm x No	780 x 1
------------------------	---------	---------

Side brush diameter x No	mm x No	500 x 2
--------------------------	---------	---------

Main brush motor	W	900
------------------	---	-----

Right side brush motor	W	90 x 2
------------------------	---	--------

### TRACTION

Motor rating	W	1200
--------------	---	------

Driving speed	km/h	7,5
---------------	------	-----

Hill climbing ability	%	20
-----------------------	---	----

## VACUUM AND DUST FILTERING SYSTEM

Motor rating	W	260
Noise level	dB(A)	75
Filter type - Material x No		Cartridge - Polyester x 8
Filtering surface - Dust Filter shaker	m <sup>2</sup>	6,4 - Electric
Waste container: position - emptying - capacity		Rear - Manual / Automatic (**) - 115 l
Weight (without batteries)	Kg	375 / 448 (**)
