

POWER WD 90.2 PD SP

Wet & Dry vacuum cleaners with shockproof container

The biggest wet&dry vacuum cleaner supplied with 2 powerful and high efficiency New Generation motors separately switchable. Model equipped with the Ultra FilteRing System (UFS) that, thanks to its special polypropylene spacer ring, allows to keep the cartridge filter (M filtration class) always installed guaranteeing best suction performances and maximum motor protection (even in case of incorrect use by the operator). UFS is also a practical solution: floating system is independent from the motor head, making cleaning and maintenance quick, simple and intuitive. POWER WD 90.2 PD SP (ShockProof), with 90 liters capacity, impact resistant container in plastic material and practical drain hose to easily empty the tank, is the Power Line model specifically designed for large areas and heavy duty cleaning tasks.
