

REXA 50 SM 55

Walk behind scrubber dryers REXA 50 SERIES - MANUAL

Rexa 50 SM 55 is the walk-behind, manual scrubber-dryer designed for excellent performance in daily cleaning operations in medium-sized areas. 50 litre capacity, 530 mm washing track and 750 mm suction width ensure a productivity of approximately 2120 m²/h, guaranteeing fast and effective results even in the most complex environments to clean. The ergonomic handle with integrated dual-sensor Touch System allows precise control of the machine, making every work session easier and more comfortable. Rexa 50 SM (Simply Manual) is designed to combine the best washing and drying performance with extreme ease of use, perfectly combining practicality and economy, for professional results thanks to simple and immediate interaction with the operator. The high-efficiency suction motor guarantees high power while reducing consumption for more sustainable and convenient use. Daily maintenance is made easy thanks to the recovery tank with large opening, which facilitates inspection and cleaning, and the practical, easily removable debris tray, which allows for quick waste management. Rexa 50 SM is the ideal solution for those looking for a compact, efficient and user-friendly scrubber-dryer, capable of combining high cleaning performance with practical and fast machine management.

Available in two configurations: a basic version and a full package, complete with batteries and charger, for a running time of more than 2.5 hours.
