

Compact walk behind scrubber dryers ROYAL 15 SERIES

Royal 15 E 38 is the compact walk-behind scrubber dryer ideal for cleaning small and medium-sized surfaces such as stores, laboratories, offices and restaurants. With its 15-liter capacity and 385 mm cleaning width, it provides a productivity of up to 1,540 m²/h. The sturdy and practical aluminum tiltable handle allows maximum manoeuvrability in tight spaces. The design is also carefully studied in every detail to ensure maximum comfort for the operator: the clean lines defining a compact structure and the use of practical compartments in which to store all protruding parts of the machine (such as hoses and cables) help improve the machine manoeuvrability. The use of the machine is simple and facilitated by the practical and intuitive control panel that allows control of its main functions. The ECO SYSTEM program reduces consumption and eliminates waste while maintaining the best cleaning performance with the utmost respect for the environment. The low noise level, guaranteed by the silent mode function, makes Royal to be perfect for day cleaning in "sensitive" environments (hospitals, nursing homes, schools). Royal 15 E 38 is electrically powered and comes with a standard 15-meter cable.
