

Steam generators

S-Team 10 TP VH is the professional three-phase steam generator designed for deep cleaning and sanitising in industrial environments. Steam production at 185 °C and a high operating pressure of 10 bar, developed by the continuously recharging boiler with a total output of 9000 W, guarantee excellent cleaning and productivity results. The handy control panel allows you to manage all machine operations and to activate the Detergent Function and the Hydrojet Function, which uses a powerful jet of steam mixed with water to tackle stubborn dirt. The S-Team 10 TP VH is extremely sturdy and durable, thanks to its stainless steel frame, and is the ideal steam generator for demanding industrial applications in environments such as wineries, food, chemical and cosmetic industries.
