# TOOL PRO WDA 40 L / L AS

## Vacuum cleaners with automatic filter cleaning

GHIBLI
FEEL THE PRO

Large capacity, sturdy and powerful wet and dry vacuum cleaner approved for L class dust. It is specifically designed to work in environments characterized by the presence of simple dust at moderate risk. Compact and manageable, TOOL PRO WDA 40 L is ideal for use in environments such as workshops and artisan laboratories. The innovative NONSTOPVAC! system, thanks to the automatic cleaning of the main filter through the reverse air flow, ensures a constant vacuuming and significantly reduces the downtime, allowing the operator to work without interruptions keeping high suction performance. Equipped with the power outlet for electric tool (max power 2400 W) and COMBI Kit for connecting pneumatic accessories (optional) that ensures an operating pressure of up to 10 bar. The machine can be switched on manually or automatically (controlled by the connected tool) and it is also possible to start the vacuum cleaner directly from the flexible hose thanks to the Remote Control Kit (optional). TOOL PRO WDA 40 L is available in two different versions: with antistatic accessories supplied (L AS version), to protect against any electrostatic charges that may occur during work, and with non-antistatic accessories (L version).

**COMPACT AND MANAGEABLE**

**PIVOTING WHEELS WITH BRAKE**

**HOOKS FOR ACCESSORIES AND CABLE HOLDER**

**POWER TOOL CONNECTION**

**NONSTOPVAC!**

**PTFE FLAT FILTER**
