

Backpack dry vacuum cleaners with batteries

Compact, lightweight and extremely sturdy back vacuum cleaner, it fits comfortably like a backpack for greater freedom of movement during cleaning operations. Thanks to its powerful, state-of-the-art brushless motor and extensive filter set, Voyager 4 BC Lithium guarantees excellent performance and maximum filtration, for fast and effective cleaning in a healthier environment. The ergonomic design offers optimal comfort during prolonged use, reducing physical effort and making work less tiring. The backrest and elastic waistband are designed to distribute weight evenly, reducing stress on shoulders and back. The switch, built into the belt, make it even easier to use. All details are designed to ensure operator comfort and convenience while working. The accessory holders, integrated in the belt and shoulder straps, ensure that everything you need is within easy reach. Thanks to the transparent lid, it is also possible to check the amount of material sucked in and empty it easily. This model has two different suction settings, selectable according to need: Eco mode, designed to reduce energy consumption without compromising cleaning efficiency, and Boost mode, ideal for tackling the toughest dirt. Voyager 4 BC Lithium / Swift is powered by CAS (Cordless Alliance System) batteries, which offer versatility, great reliability and high level performance:

up to 45 minutes of running time and quick recharge in 40 minutes in the BC Lithium version and up to 35 minutes of running time, with equally quick recharge times in the BC Lithium Swift version.
